Professional Summary: Passionate and adaptable individual with a robust background in IT and business management. Committed to becoming a proficient full-stack developer, leveraging technical expertise and creative problem-solving skills to drive innovation in software development projects.

Work Experience:

Full Stack Developer Graduate, Dev Academy, Auckland (Jan 2024 - May 2024)

- Collaborated on multiple full-stack projects using TypeScript, JavaScript, React, Express.js, and Node.js in team settings.
- Implemented frontend and backend components, ensuring seamless integration and functionality across the stack.
- Contributed to project success through effective communication, adaptability, and problem-solving skills.

Frontend Developer, Orderlink, Auckland (Jan 2023 - Present)

- Design and implement user-friendly web interfaces with HTML, CSS, and TypeScript using React framework.
- Work with designers, backend developers, and product managers to turn requirements and designs into interactive web applications.
- Improve web application loading speeds and responsiveness, ensuring compatibility across devices and browsers.
- Follow coding best practices and accessibility standards, and participate in code reviews and version control with Git.

Logistics Worker, Link2 Services, Auckland (Jan 2018 - Jun 2019)

- Managed logistics operations in warehouse environments, ensuring efficient inventory management and order fulfilment.
- Operated various equipment including forklifts, optimizing warehouse layout and workflow.

Direct Marketeer, Vadacom, Hamilton (Apr 2017 - Sept 2018)

- Created sales leads for the Internet based phone system company.
- Day to day task involved communicating with non-technical customers and explaining how the IP based phone system worked.

Web Development trainer, E-Profess, Bathinda, India (Dec 2014 - Nov 2016)

- Worked as a trainer teaching high school students in India basics of HTML and Object-Oriented programming. Helped them in building static web pages.
